Dear Chairman and Parish Clerk,

Re: 'Your Energy Sussex' tariffs

I wanted to let you know that the County Council has launched its own, local, not-for-profit energy supplier, called 'Your Energy Sussex', providing competitively-priced gas and electricity to homes across West Sussex. We are working on the initiative with District and Borough councils across West Sussex and would be delighted if you could support us in sharing this with your community.

The aim is to encourage more of our residents to compare their energy costs, switch regularly and, ultimately, reduce their energy costs. The most recent figures from Ofgem show that the majority of energy customers have not switched their tariff or supplier in the last year and by doing so could save an average £300 per year.

'Your Energy Sussex' is different to other energy suppliers. It has established a Fuel Poverty Fund and uses its profits to support residents who are struggling to pay their energy bills. It also works hard to ensure its gas and electricity tariffs are always competitive and contacts customers by letter and phone to make sure they stay on their best energy tariff.

'Your Energy Sussex' will also help customers who stay in credit on their pre-payment meters to switch to a credit meter if they would like to. This will save them money in the long term. Residents interested in getting a quote or switching to 'Your Energy Sussex' should visit www.yourenegysussex.org.uk or call 0800 952 0001.

Yours sincerely,

Bognor Regis - West Sussex

Dear Sir/Madam,

I am a pastor of a church in Bognor Regis, West Sussex. I am passionate about people, interested in developing Christian discipleship, working alongside people in mission and as part of a team, building confidence and offering leadership, building relationships between church and community.

Our church group is ready to serve immediately. We are raring to go for new challenges even in the remote areas in Scotland (Higlands, Outer Hebrids).

As a church, we would like to request government support for the registration, creation and expansion of our organization, with the intent of carrying out an impressive social work.

We hope, through government support, to provide support in fostering children, education and skills, employment and economy, housing and social services. The program offers participants assistance with resumes, interviewing skills, job searching and basics of computer use for employments purposes.

The church, through the message of the Gospel, is the only hope of change in all areas of life. This fulfills the human being and will bring the pleasure of enjoying life to its fullest, increasing self-esteem and making the person more productive for the challenging job market.

There are a range of social problems that government has consistently struggled with, **including children in care, homelessness, etc. Traditional models have failed to deliver the innovation and focus on results needed to make inroads with these issues. Our group could bring together the public, private and voluntary sectors to solve these challenges by having a clear and relentless focus upon delivering the outcomes we want to see.**

In order to carry out such important work like this, we will need material, logistical and financial support. **There are buildings (churches, houses, farms etc.) that are not being used. Many of these buildings are abandoned.** We are certain that with available resources these buildings, once properly prepared for the people who will benefit from this project, will have a tremendous impact on society.

Could the government finance a project or make one of these buildings available for the purpose of social work? How much of this stake could it offer?

I've been several times in Africa (Mozambique, South Africa and Sao Tome and Principe), helping churches and working with **incoming generating projects**. Not looking for a specific position. Just willing to serve and show availability to work worldwide.

My previous employments have enabled me to gain excellent experience in administrative areas, chaplaincy, fundraising activities, charity and volunteer work, HR Assistant, Communication (Press), coordinator of events, accident prevention and care assistant. In my current job I am also responsible for the members of staff in Africa.

We believe that our proposed project could impact hundreds by increasing resources and public awareness of our services.

For these reasons, we kindly request all the needed support to implement our project. It will have a meaningful and sustainable impact in our communities.

Sincerely,

Anderson Vieira

Dear Mr Trevor Ford

On Saturday 9th June 2018, The Yapton & Ford History Group is staging an exhibition to commemorate the centenary of Ford Airfield.

It is being held in the Yapton & Ford Village Hall as well as on the playing field. Organizing of the event is well advanced with research being undertaken into as many aspects of the airfield's history as possible. Organizations that are already involved include Tangmere Military Museum, the University of Chichester, the Association of Wrens, the Military Vehicle Trust and Chichester AirAces Association. It is also hoped to have a 'flyby' by the Royal Navy Heritage Flight, BofB Memorial Flight and the Red Arrows but their appearance depends on whether they are in the area on the day.

Of course, the extent of the event that we can stage always comes down to finance. We have already received a grant from Yapton Parish council and donations from members of the public. We would like to take this opportunity to ask Ford Parish Council if they are able to authorize a grant to help with the funding. Needless to say that all due credit will be given and all the council members would be welcomed on the day.

Kind Regards
Allen Misselbrook
Chairman

Re: Grant aid for Littlehampton Advice Centre 2018

Dear Mr Taylor,

I am writing for your consideration for Grant Aid for Littlehampton Advice Centre for the financial year 2018/2019 and would be very grateful if Ford Parish Council would consider a contribution of £50 towards the core funding costs of the Littlehampton Advice Centre.

One of our challenges in 2018 is the full service 'roll out' of Universal Credit, due to start on the 1st July 2018 in the Arun and Chichester area. Universal Credit works well for many people, but problems with the system mean some families are left struggling.

Evidence from Citizens Advice and many other bodies – including the DWP itself, shows that many people are struggling to make ends meet while they wait for their first Universal Credit payment, which can push them into debt.

As the government insists on pushing ahead with the accelerated roll-out of Universal Credit urgent action is still needed to ensure that nobody has to wait more than six weeks for their Universal Credit payment, which risks causing hardship, and that practical support is available to anyone struggling to make or manage claims.

We are expecting around 12-15% additional clients in 2018 during to Universal Credit enquiries, and are putting into place additional training and resources to meet this demand. We will not get any additional core funding to support this demand, so we are appealing to our Town and Parish Councils for their continued support and funding, which enables us to offer the best possible service we can to our clients.

If you require any further information about Universal Credit, or about what we do, one of our staff would be very happy to come to one of your meetings and explain more about the work we do.

Yours sincerely
